

Quickline Flat Rope and Reel

Easy to use and instantly accessible — Quickline is the answer to storing your mooring, towing, anchoring or extra line onboard your boat.

- Self-storing line — **NEVER SNAGS!**
- Anchor rode, mooring and shore line
- Excellent dingy tow line

- 3 Different Reel Diameters!**
- 3 Different Line Lengths!**
- 2 Different Line Widths!**

Quickline flat rope is made of durable polyester thread that is mounted in a stainless steel enclosure. Once deployed, the line stretches as loads increase; this feature allows it to absorb hard, sudden surges so your cleats don't have to. Durable Delrin® reel bearings and Teflon® fairleads ensure smooth, lasting operation.

Quickline won't tangle because it's mounted on a self-storing, high quality 316L stainless steel reel that dispenses line as needed. Simply let the line play out and crank it in — no fouling of the line. It's that easy!

Quickline is easily mounted to railing hardware or flat surfaces. The reel comes complete with a mounting kit, and a locking handle. Units come in three reel sizes, three line lengths and two widths. Use the chart below to choose the Quickline that is right for you.

Another advantage to Quickline flat rope is that vermin cannot climb aboard because they can't navigate the flat surface — they simply fall off.

Limited Warranty: Quickline USA warrants that these products will be free from defects in materials and workmanship under normal use and service for a period of three (3) years from the date of purchase. If any product proves to be defective within the three-year period, the customer must return the defective Product to Quickline USA.

Quickline, at its sole discretion, will repair or replace the defective Product, provided that Quickline USA investigation disclose that (a) such defect developed under normal and proper use and (b) the Product is covered under this limited Warranty. Repair or replacement of the defective Product shall be Quickline's sole obligation and the customer's sole remedy hereunder. The customer is liable and shall pay for shipment of the Products to Quickline USA

Specifications

| Unit # | Width (in.) | Line Length (ft.) | Reel Diameter (in.) | Breaking Force (lb.) | Unit Weight (lb.) |
