

Parts List:

- Quickline Reel (1)
- Quickline Reel Handle (1)
- 25 MM Tubing Clamp (3)
- Multi-holed Stainless Spacer Strap (3)
- Plastic Spacer (3)
- M5X50mm Stainless Machine Screw (3)
- M5X15mm Stainless Machine Screw (3)
- M5 Stainless Steel Nut (3)
- M5 Stainless Steel Washer (3)

Quickline mounting Instructions

1. Tubing Clamps: Use tubing clamps to secure Quickline Reel to stanchion, handrail, or pulpit. Attach in 3 places. If tubing clamps are too big for tubing use self-bonding rigging tape under the clamp.
2. Multi-holed straps: The multi-holed spacer straps are used to span distance between Quickline Reel and clamps when mounting. Straps can also be used for bulkhead mounting.
3. Plastic Spacers: Use spacers to keep shape of Quickline when mounting on a flat surface such as a bulkhead or hatch cover. Do not wrap the Quickline when mounting. Reel will not operate properly if body is warped or twisted.

OPERATING INSTRUCTIONS

1. The Quickline Reel is a storage device and should not be used under load. Do not use the reel as a winch. Secure the line to deck cleat to take a load.
2. When using the flat rope with a winch do not take more than one to one and a half turns on the winch drum. Be careful not to over lay the flat line on itself.
3. For ease of operation recover all line manually before winding loosely on too reel.
4. The line is attached softly to the reel hub. The line must be secured to a deck cleat or it will separate from the hub and be lost overboard.
5. When anchoring:
 - a. Know your water depth. Use 3 to 7 times your water depth plus deck height above water line for length of line to let out.
 - b. Do not let anchor line run completely. Please keep a minimum of 3 wraps on the reel.
 - c. A short length of chain (10 to 15 feet) is recommended between the end of the flat rope and your anchor to combat abrasion on the sea floor.
 - d. When weighing anchor, retrieve slack line by hand. If anchor is stuck, secure line to deck cleat, do not take load on Quickline Reel. Retrieve anchor to deck by hand.
