

Ultra Swivel

Safe and secure anchoring is all about the equipment.

Quickline provides the highest quality 316L stainless steel anchoring gear that's effective, easy to use, and best of all, it delivers peace of mind.

- Connects chain to anchor
- Easy passage of anchor over bow roller — **WILL NOT BIND!**
- Stainless steel swivel rotates 30 degrees before set anchor position is impacted

Put an end to galvanized or corroded anchor chain shackles. The Ultra swivel is a beautifully crafted 316L stainless steel swivel that is strong, safe and a super efficient way to connect your anchor chain to the anchor.

The swivel head allows the chain to move 30 degrees in every direction without disturbing or dislodging a set anchor.

When retrieving the anchor, Ultra Swivel allows the anchor to easily right and align itself with the bow rollers; thus avoiding wear and tear on the windlass, and your time on a rolling deck.

Specifications

Unit #	Anchor Chain Size (in.)	Anchor Weight (lbs.)	Breaking Strength (lbs.)
S6	1/4	30	4,960
S8	5/16	50	9,140
S10	3/8	80	14,580
